## SECTION I: SUMMARY AND MISSION STATEMENT

---

Lahey Hospital & Medical Center (LHMC) is a member of Beth Israel Lahey Health (BILH). The BILH network of affiliates is an integrated health care system committed to expanding access to extraordinary patient care across Eastern Massachusetts and advancing the science and practice of medicine through groundbreaking research and education. The BILH system is comprised of academic and teaching hospitals, a premier orthopedics hospital, primary care and specialty care providers, ambulatory surgery centers, urgent care centers, community hospitals, homecare services, outpatient behavioral health centers, and addiction treatment programs. BILH's community of clinicians, caregivers and staff includes approximately 4,000 physicians and 35,000 employees.

At the heart of BILH is the belief that everyone deserves high-quality, affordable health care. This belief is what drives BILH to work with community partners across the region to promote health, expand access, and deliver the best care in the communities BILH serves. LHMC's Community Benefits staff are committed to working collaboratively with its communities to address the leading health issues and create a healthy future for individuals, families and communities.

While LHMC oversees local Community Benefits programming and community engagement efforts, Community Benefits is under the purview of the BILH Chief Diversity, Equity and Inclusion Officer. This structure makes sure that Community Benefits efforts, prioritization, planning and strategy align and/or are integrated with local hospital and system strategic and regulatory priorities and efforts to ensure health equity in fulfilling BILH's mission – *We create healthier communities – one person at a time – through seamless care and ground-breaking science, driven by excellence, innovation and equity* and values, encompassed by the acronym *WE CARE*:

- *Wellbeing - We provide a health-focused workplace and support a healthy work-life balance*
- *Empathy - We do our best to understand others' feelings, needs and perspectives*
- *Collaboration - We work together to achieve extraordinary results*
- *Accountability - We hold ourselves and each other to behaviors necessary to achieve our collective goals*
- *Respect - We value diversity and treat all members of our community with dignity and inclusiveness*
- *Equity - Everyone has the opportunity to attain their full potential in our workplace and through the care we provide.*

At LHMC, our mission guides us toward success. LHMC is committed to providing superior health care leading to the best possible outcomes for every patient, exceeding our patients' high expectations for service each day, advancing medicine through research and the education of tomorrow's health care leaders, and promoting health and wellness in partnership with the diverse communities it serves.

More broadly, LHMC's Community Benefits mission is fulfilled by:

- **Involving LHMC's staff**, including its leadership and dozens of community partners in the Community Health Needs Assessment (CHNA) process as well as in the development, implementation, and oversight of the hospital's three-year Implementation Strategy (IS);

- **Engaging and learning from residents** throughout LHMC’s Community Benefits Service Area (CBSA) in all aspects of the Community Benefits process, with special attention focused on engaging diverse perspectives, from those, patients and non-patients alike, who are often left out of similar assessment, planning and program implementation processes;
- **Assessing unmet community need** by collecting primary and secondary data (both quantitative and qualitative) to understand unmet health-related needs and identify communities and population segments disproportionately impacted by health issues and other social, economic and systemic factors;
- **Implementing community health programs and services** in LHMC’s CBSA that address the underlying social determinants of health, barriers to accessing care, as well as promote equity to improve the health status of those who are often disadvantaged, face disparities in health-related outcomes, experience poverty, and have been historically underserved;
- **Promoting health equity** by addressing social and institutional inequities, racism, and bigotry and ensuring that all patients are welcomed and received with respect and have access to culturally responsiveness care; and
- **Facilitating collaboration and partnership within and across sectors** (e.g., state/local public health agencies, health care providers, social service organizations, businesses, academic institutions, community health collaboratives, and other community health organizations) to advocate for, support, and implement effective health policies, community programs, and services.

The following annual report provides specific details on how LHMC is honoring its commitment and includes information on LHMC’s CBSA, community health priorities, priority cohorts, community partners, and detailed descriptions of its Community Benefits programs and their impact.

### **Priority Cohorts**

LHMC’s CBSA includes Arlington, Bedford, Billerica, Burlington, Danvers, Lexington, Lowell, Lynnfield, and Peabody. In FY 2022, LHMC conducted a comprehensive and inclusive Community Health Needs Assessment (CHNA) that included extensive data collection activities, substantial efforts to engage LHMC’s partners and community residents, and thoughtful prioritization, planning, and reporting processes. These activities were in full compliance with the Commonwealth’s updated Community Benefits Guidelines for FY 2019. While LHMC is committed to improving the health status and well-being of those living throughout its entire CBSA, per the Commonwealth’s updated community benefits guidelines, LHMC’s FY 2023 - 2025 Implementation Strategy (IS) will focus its Community Benefits resources on improving the health status of those who face health disparities, experience poverty, or who have been historically underserved living in its CBSA.

Based on the assessment, community characteristics that were thought to have the greatest impact on health status and access to care in the LHMC CBSA were issues related to age, race/ethnicity, language, and immigration status. While the majority of residents in the CBSA were predominantly white and born in the United States, there were non-white, people of color, immigrants, non-English speakers and foreign-born populations in all communities.

There was consensus among interviewees and focus group participants that older adults, people of color, recent immigrants, and non-English speakers faced systemic challenges that limited their ability to access health care services. While relatively small, these segments of the population were impacted by language

and cultural barriers that limited access to appropriate services, posed health literacy challenges, exacerbated isolation, and may have lead to discrimination and disparities in access and health outcomes.

One issue to be noted was the lack of data available by gender identity and sexual orientation at the community or municipal level. Research shows that those who identify as lesbian, gay, bisexual, transgender, and/or queer/questioning experience health disparities and challenges accessing services.

LHMC is committed to promoting health, enhancing access, and delivering the best care for those in its CBSA. Over the next three years, LHMC will work with its community partners to develop and/or continue programming geared to improving overall well-being and creating a healthy future for all individuals, families, and communities. In recognition of the health disparities that exist for certain segments of the population, investments and resources will focus on improving the health status of the following cohorts within the community health priority areas.

- Youth
- Low-Resourced Populations
- Older Adults
- LGTBQIA+
- Racially, ethnically, and linguistically diverse populations

### **Basis for Selection**

Community health needs assessments; public health data available from government (public school districts, Massachusetts Department of Public Health, federal agencies) and private resources (foundations, advocacy groups); and LHMC's areas of expertise.

### **Key Accomplishments for Reporting Year**

The accomplishments and activities highlighted in this report are based upon priorities identified and programs contained in LHMC's FY 2022 Community Health Needs Assessment (CHNA) and FY 2023-2025 Implementation Strategy (IS):

- LHMC provided breast cancer risk assessments for over 20,000 people to identify those at high risk for the disease.
- LHMC assisted patients in FY23 who had Medicaid coverage, presented as self-paying and completed an application with a Financial Navigator, who qualified for upgraded MassHealth coverage, or otherwise required support navigating the financial components of their health care visit.
- LHMC provided 40 internships in radiology, nuclear medicine, and sonology for students at surrounding universities to strengthen the local workforce.
- LHMC continued to partner with the New Entry Sustainable Farming Project to provide weekly farmers markets at the Arlington, Burlington, and Billerica Councils on Aging. This program provides free, fresh produce every week to over 200 seniors at those locations.
- LHMC helped support the Peabody Veterans Memorial High School Student Health Center, which provided services for over 300 unique individuals.
- LHMC provided funding to the Lowell Community Health Center to support their interpreter services program. Interpretation is required in 45% of the health center's total encounters.

- LHMC provided support to the Greater Boston YMCA and the Metro North YMCA for their evidence based Enhance Fitness Program. Over 50 older adults participated in the program and 100% reported an improvement in their overall health.
- LHMC partnered with the Merrimack Valley Food Bank to provide a farmers market program at three low-income housing sites in the city of Lowell that served 554 people.

### **Plans for Next Reporting Year**

In FY 2022, LHMC conducted a comprehensive and inclusive CHNA that included extensive data collection activities, substantial efforts to engage LHMC's partners and community residents, and thoughtful prioritization, planning, and reporting processes. These activities were in full compliance with the Commonwealth's updated Community Benefits Guidelines for FY 2019. In response to the FY 2022 CHNA, LHMC will focus its FY 2023 - 2025 IS on four priority areas. These priority areas collectively address the broad range of health and social issues facing residents living in LHMC's CBSA who face the greatest health disparities. These four priority areas are:

- Equitable Access to Care
- Social Determinants of Health
- Mental Health and Substance Use
- Complex and Chronic Conditions.

These priority areas are aligned with the statewide health priorities identified by the Executive Office of Health and Human Services (EOHHS) in 2017 (i.e., Chronic Disease, Housing Stability/Homelessness, Mental Illness and Mental Health, and Substance Use Disorders). LHMC's priorities are also aligned with the priorities identified by the Massachusetts Department of Public Health (DPH) to guide the Community-based Health Initiative (CHI) investments funded by the Determination of Need (DoN) process, which underscore the importance of investing in the Social Determinants of Health (i.e., built environment, social environment, housing, violence, education, and employment).

The FY 2022 CHNA provided new guidance and invaluable insights on quantitative trends and community perceptions being used to inform and refine LHMC's efforts. In completing the FY 2022 CHNA and FY 2023 - 2025 IS, LHMC, along with its other health, public health, social service, and community partners, is committed to promoting health, enhancing access and delivering the best care to all who live and/or work in its CBSA, regardless of race, ethnicity, language spoken, national origin, religion, gender identify, sexual orientation, disability status, immigration status, or age. As discussed above, based on the FY 2022 CHNA's quantitative and qualitative findings, including discussions with a broad range of community participants, there was agreement that for LHMC's FY 2023 - 2025 IS, it should work with its community partners to develop and/or continue programming to improve well-being and create a healthy future for all individuals and families. In recognition of the health disparities that exist for certain segments of the population, LHMC's Community Benefits investments and resources will focus on the improving the health status, addressing disparities in health outcomes, and promoting health equity for its priority cohorts, which include youth; low-resourced populations; older adults; racially, ethnically and diverse populations; LGBTQIA+; and older adults.

LHMC partners with clinical and social service providers, community-based organizations, public health officials, elected/appointed officials, hospital leadership and other key collaborators throughout its CBSA to execute its FY 2023 – 2025 IS.

- **Equitable Access to Care**
  - LHMC will work with the Lowell Community Health Center to provide support for interpreter services in order to help to provide equitable and comprehensive access to high-quality health care services including primary care and specialty care, urgent and emerging care, particularly for those who face cultural, linguistic and economic barriers.
  
- **Social Determinants of Health**
  - LHMC will work with Mill City Grows, New Entry Sustainable Farming Project, and the Merrimack Valley Food Bank to provide farmers markets and community gardens to improve health and quality of life outcomes
  
- **Mental Health and Substance Use**
  - LHMC will work with Place of Promise to help to provide support for their community-based recovery support services to promote social and emotional wellness by fostering resilient communities and building equitable, accessible, and supportive systems of care to address mental health and substance use.
  
- **Complex and Chronic Conditions**
  - LHMC will continue its partnership with the Burlington Council on Aging to provide free exercise classes for older adults to build their capacity to recover and sustain healthy habits.

### **Hospital Self-Assessment Form**

Working with its Community Benefits Leadership Team and its Community Benefits Advisory Committee (CBAC), the LHMC Community Benefits staff completed the Hospital Self-Assessment Form (Section VII, page 45]. The LHMC Community Benefits staff also shared the Community Representative Feedback Form with its CBAC members who participated in LHMC's CHNA and asked them to submit the form to the AGO website.

---

## **SECTION II: COMMUNITY BENEFITS PROCESS**

---

### **Community Benefits Leadership/Team**

LHMC's Board of Trustees along with its clinical and administrative staff is committed to improving the health and well-being of residents throughout its CBSA and beyond. LHMC's Community Benefits Department, under the direct oversight of LHMC's Board of Trustees, is dedicated to collaborating with community partners and residents and will continue to do so in order to meet its Community Benefits obligations. Hospital senior leadership is actively engaged in the development and implementation of the LHMC's Implementation Strategy, ensuring that hospital policies and resources are allocated to support planned activities.

It is not only the LHMC's Board of Trustee members and senior leadership who are held accountable for fulfilling LHMC's Community Benefits mission. Among LHMC's core values are the recognition that the most successful Community Benefits programs are implemented organization wide and integrated into the very fabric of the hospital's culture, policies, and procedures. A commitment to Community Benefits is a focus and value manifested throughout BILH and LHMC's structure and reflected in how care is provided at the hospital and in affiliated practices.

While LHMC oversees local Community Benefits programming and community engagement efforts, Community Benefits is under the purview of the BILH Chief Diversity, Equity and Inclusion Officer. This structure makes sure that Community Benefits efforts, prioritization, planning, and strategy focus on equity and align and are integrated with local and system strategic and regulatory priorities to ensure health equity in fulfilling BILH's mission – *We create healthier communities – one person at a time – through seamless care and ground-breaking science, driven by excellence, innovation and equity and values, encompassed by the acronym WE CARE:*

- *Wellbeing - We provide a health-focused workplace and support a healthy work-life balance*
- *Empathy - We do our best to understand others' feelings, needs and perspectives*
- *Collaboration - We work together to achieve extraordinary results*
- *Accountability - We hold ourselves and each other to behaviors necessary to achieve our collective goals*
- *Respect - We value diversity and treat all members of our community with dignity and inclusiveness*
- *Equity - Everyone has the opportunity to attain their full potential in our workplace and through the care we provide.*

The LHMC Community Benefits program is spearheaded by Michelle Snyder, Regional Manager Community Benefits/Community Relations. The Regional Manager has direct access and is accountable to the LHMC President and the BILH Vice President of Community Benefits and Community Relations, the latter of whom reports directly to the BILH Chief Diversity, Equity and Inclusion Officer. It is the responsibility of these leaders to ensure that Community Benefits is addressed by the entire organization and that the needs of cohorts who have been historically underserved are considered every day in discussions on resource allocation, policies, and program development.

This structure and methodology are employed to ensure that Community Benefits is not the purview of one office alone and to maximize efforts across the organization to fulfill the mission and goals of BILH and LHMC's Community Benefits program.

### **Community Benefits Advisory Committee (CBAC)**

The LHMC Community Benefits Advisory Committee (CBAC) works in collaboration with LHMC's hospital leadership, including the hospital's governing board and senior management to support LHMC's Community Benefits mission to serve its patients compassionately and effectively, and to create a healthy future for them, their families, and LHMC's community. The CBAC provides input into the development and implementation of LHMC's Community Benefits programs in furtherance of LHMC's Community Benefits mission. The membership of LHMC's CBAC aspires to be representative of the constituencies and priority cohorts served by LHMC's programmatic endeavors, including those from diverse racial and ethnic backgrounds, age, gender, sexual orientation and gender identity, as well as those from corporate and non-profit community organizations.

The LHMC CBAC met on the following dates:

December 13<sup>th</sup>, 2022

March 21<sup>st</sup>, 2023

June 20<sup>th</sup>, 2023

September 19<sup>th</sup>, 2023

## Community Partners

LHMC recognizes its role as a tertiary/academic resource in a larger health system and knows that to be successful it needs to collaborate with its community partners and those it serves. LHMC's Community Health Needs Assessment (CHNA) and the associated Implementation Strategy (IS) were completed in close collaboration with LHMC's staff, community residents, community-based organizations, clinical and social service providers, public health officials, elected/appointed officials, hospital leadership and other key collaborators from throughout its CBSA. LHMC's Community Benefits program exemplifies the spirit of collaboration that is such a vital part of LHMC's mission.

LHMC currently supports numerous educational, outreach, community health improvement, and health system strengthening initiatives within its CBSA. In this work, LHMC collaborates with many of its local community-based organizations, public health departments, municipalities and clinical and social service organizations. LHMC has a particularly strong relationship with the Lowell Community Health Center, North Shore Community Health Center, and Saheli, among many other organizations.

The following is a comprehensive listing of the community partners with which LHMC joins in assessing community need as well as planning, implementing, and overseeing its Community Benefits Implementation Strategy. The level of engagement of a select group of community partners can be found in the Hospital Self-Assessment (Section VII, page 45].

- A Healthy Lynnfield Coalition
- Burlington Recreation Department
- Burlington School Department
- Center for Hope and Healing
- City of Peabody
- Greater Boston YMCA
- Housing Corporation of Arlington
- Merrimack Valley Food Bank
- Metro North YMCA
- Mill City Grows
- Minuteman Senior Services
- New Entry Sustainable Farming Project
- North Shore Community Health
- North Suburban YMCA
- Place of Promise
- Saheli
- Town of Arlington
- Town of Bedford
- Town of Billerica
- Town of Burlington
- Town of Lexington
- Town of Lynnfield

---

## SECTION III: COMMUNITY HEALTH NEEDS ASSESSMENT

---

The FY 2022 Community Health Needs Assessment (CHNA) along with the associated FY 2023-2025 Implementation Strategy was developed over a twelve-month period from September 2021 to September 2022. These community health assessment, planning, and implementation efforts fulfill the Commonwealth of Massachusetts Attorney General's Office and federal Internal Revenue Service's (IRS) requirements. More specifically, these activities fulfill the LHMC's need to conduct a community health needs assessment, engage the community, identify priority health issues, inventory community assets, assess impact, and develop an Implementation Strategy. However, these activities are driven primarily by LHMC's dedication to its mission, its covenant to cohorts who have been historically underserved, and its commitment to community health improvement.

As mentioned above, LHMC's most recent CHNA was completed during FY 2022. FY 2023 Community Benefits programming was informed by the FY 2022 CHNA and aligns with LHMC's FY 2023 – FY 2025 Implementation Strategy. The following is a summary description of the FY 2022 CHNA approach, methods, and key findings.

### **Approach and Methods**

The FY 2022 assessment and planning process was conducted in three phases between September 2021 and September 2022, which allowed LHMC to:

- Assess community health, defined broadly to include health status, social determinants, environmental factors and service system strengths/weaknesses;
- Engage members of the community including local health departments, clinical and social service providers, community-based organizations, community residents and LHMC's leadership/staff;
- Prioritize leading health issues/population segments most at risk for poor health, based on review of quantitative and qualitative evidence;
- Develop a three-year Implementation Strategy to address community health needs in collaboration with community partners, and;
- Meet all federal and Commonwealth Community Benefits requirements per the Internal Revenue Service, as part of the Affordable Care Act, the Massachusetts Attorney General's Office, and the Massachusetts Department of Public Health.

LHMC's Community Benefits program is predicated on the hospital's commitment to promoting health and well-being, addressing health disparities, and working to achieve health equity. Health equity - the attainment of the highest level of health for all people - requires focused and ongoing efforts to address inequities and socioeconomic barriers to accessing care, as well as the current and historical discrimination and injustices that underlie existing disparities. Throughout the CHNA process, efforts were made to understand the needs of the communities that LHMC serves, especially the population segments that are often disadvantaged, face disparities in health-related outcomes, and who have been historically underserved. LHMC's understanding of these communities' needs is derived from collecting a wide range of quantitative data to identify disparities and clarify the needs of specific communities and comparing it against data collected at the regional, Commonwealth and national levels wherever possible to support analysis and the prioritization process, as well as employing a variety of strategies to ensure community members were informed, consulted, involved, and empowered throughout the assessment process.

Between October 2021 and February 2022, LHMC conducted 20 one-on-one interviews with key collaborators in the community, facilitated four focus groups with segments of the population facing the greatest health-related disparities, administered a community health survey involving more than 950 residents, and organized two community listening sessions. In total, the assessment process collected information from more than 1,000 community residents, clinical and social service providers and other community partners.

The articulation of each specific community's needs (done in partnership between LHMC and community partners) is used to inform LHMC's decision-making about priorities for its Community Benefits efforts. LHMC works in concert with community residents and leaders to design specific actions to be collaboratively undertaken each year. Each component of the plan is developed and eventually woven into the annual goals and agenda for the LHMC's Implementation Strategy that is adopted by the LHMC's Board of Trustees.

## **Summary of FY 2022 CHNA Key Health-Related Findings**

### **Equitable Access to Care**

- Individuals identified a number of barriers to accessing and navigating the health care system. Many of these barriers were at the system level, meaning that the issues stem from the way in which the system does or does not function. System level issues included providers not accepting new patients, long wait lists, and an inherently complicated healthcare system that is difficult for many to navigate.
- There were also individual level barriers to access and navigation. Individuals may be uninsured or underinsured, which may lead them to forego or delay care. Individuals may also experience language or cultural barriers - research shows that these barriers contribute to health disparities, mistrust between providers and patients, ineffective communication, and issues of patient safety.

### **Social Determinants of Health**

- The social determinants of health are the conditions in the environments where people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks. These conditions influence and define quality of life for many segments of the population in the CBSA. Research shows that sustained success in community health improvement and addressing health disparities relies on addressing the social determinants of health that lead to poor health outcomes and drive health inequities. The assessment gathered a range of information related to economic insecurity, education, food insecurity, access to care/navigation issues, and other important social factors.
- There is limited quantitative data in the area of social determinants of health. Despite this, information gathered through interviews, focus groups, survey, and listening sessions suggested that these issues have the greatest impact on health status and access to care in the region - especially issues related to housing, food security/nutrition, and economic stability.

### **Mental Health and Substance Use**

- Anxiety, chronic stress, depression, and social isolation were the leading community health concerns. The assessment identified specific concerns about the impact of mental health issues for

youth and young adults, the mental health impacts of racism, discrimination, and trauma, and social isolation among older adults. These difficulties were exacerbated by COVID-19.

- In addition to the overall burden and prevalence of mental health issues, residents identified a need for more providers and treatment options, especially inpatient and outpatient treatment, child psychiatrists, peer support groups, and mental health services.
- Substance use continued to have a major impact on the CBSA; the opioid epidemic continued to be an area of focus and concern, and there was recognition of the links and impacts on other community health priorities, including mental health, housing, and homelessness. Individuals engaged in the assessment identified stigma as a barrier to treatment and reported a need for programs that address common co-occurring issues (e.g., mental health issues, homelessness).

### **Complex and Chronic Conditions**

- Chronic conditions such as cancer, diabetes, chronic lower respiratory disease, stroke, and cardiovascular disease contribute to 56% of all mortality in the Commonwealth and over 53% of all health care expenditures (\$30.9 billion a year). Perhaps most significantly, chronic diseases are largely preventable despite their high prevalence and dramatic impact on individuals and society.

For more detailed information, see the full FY 2022 LHMC Community Health Needs Assessment and Implementation Plan Report on the hospital's website.

**SECTION IV: COMMUNITY BENEFITS PROGRAMS**

|  |   |                                |
|--|---|--------------------------------|
| <b>Priority Health Need: Equitable Access to Care</b>                |   |                                |
| <b>Program Name: Patient Financial Counseling</b>                    |   |                                |
| <b>Health Issue: Additional Health Needs as Defined by Community</b> |   |                                |
| <b>Brief Description or Objective</b>                                | LHMC employs four MassHealth-certified application counselors who can screen patients and assist them in applying for state aid. They also estimate for patients their financial responsibility (copay, deductible, coinsurance, self-pay). The financial counselors spend their time with patients discussing financial assistance and estimates and helping patients understand their insurance benefits. |                                |
| <b>Program Type</b>  | <input type="checkbox"/> Direct Clinical Services <input checked="" type="checkbox"/> Access/Coverage Supports<br><input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support Community Benefits<br><input type="checkbox"/> Total Population or Community Wide Intervention  |                                |
| <b>Program Goal(s)</b>   | Assist patients who are uninsured to assess their eligibility for and align them with state and hospital-based financial assistance programs.   |                                |
| <b>Goal Status</b>   | For FY 23 LHMC screened 17,871 patients for eligibility of which 2,103 were approved for an entitlement program. The number of patients with Health Safety Net (HSN) served at LHMC were 2,749  |                                |
| <b>Time Frame Year: Year 1</b>                                       | <b>Time Frame Duration: Year 3</b>  | <b>Goal Type: Process Goal</b> |

|  |   |  |
|--|---|--|
| <b>Priority Health Need: Equitable Access to Care</b>                |   |  |
| <b>Program Name: Interpreter Services</b>                            |   |  |
| <b>Health Issue: Additional Health Needs as Defined by Community</b> |   |  |
| <b>Brief Description or Objective</b>                                | LHMC offers an extensive Interpreter Services program that provides interpretation (translation) and assistance in over 60 different languages, including American Sign Language, and hearing augmentation devices for those who are hard of hearing. The Interpreter Services Department routinely also helps with facilitating access to care, helping patients understand their course of treatment, and adhering to discharge instructions and other medical regimens. LHMC also routinely translates materials such as legal consents for treatment, patient education forms, and discharges to continue to reduce barriers to care. |  |
| <b>Program Type</b>  | <input type="checkbox"/> Direct Clinical Services <input checked="" type="checkbox"/> Access/Coverage Supports<br><input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support Community Benefits<br><input type="checkbox"/> Total Population or Community Wide Intervention  |  |

|                                |  |                                |
|--------------------------------|--|--------------------------------|
| <b>Program Goal(s)</b>         | Provide culturally responsive care through the Interpreter Services Department.  |                                |
| <b>Goal Status</b>             | For FY 23 LHMC there were 101,449 encounters. The top 3 Languages were Spanish (40,023) encounters, Portuguese - Brazilian (9,236 encounters), Chinese - Mandarin (9,219 encounters) |                                |

|   |  |
|---|--|
| <b>Priority Health Need: Equitable Access to Care</b><br><b>Program Name: Lowell Community Health Center Keys to Health Equity Project: Language Supports</b><br><b>Health Issue: Additional Health Needs as Defined by Community</b> |  |
| <b>Brief Description or Objective</b>   | LHMC supports the Lowell Community Health Center with funding to offset the cost of their interpreter services program. Nearly 40% of Lowell CHC patients are best served in languages other than English, this grant will strengthen the health center's capacity to deliver on-demand language services for more than half of their 35,000 patients.   |
| <b>Program Type</b>   | <input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports<br><input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support Community<br><input checked="" type="checkbox"/> Total Population or Community Wide Benefits Intervention   |
| <b>Program Goal(s)</b>  | <p>Deliver on-demand interpretation and follow-up services for patients, in all languages.</p> <p>Ensure community and patient access to evidence-based, culturally tailored education on COVID-19 prevention and other health concerns by delivering as many as 7,000 interpreter-assisted sessions/month, all sources</p>  |
| <b>Goal Status</b>  | <p>In FY 23, the Lowell Community Health Center provided 176,347 sessions of interpretations (in-house interpreters = 71,779; External Language Line = 104,568) to 17,000 patients. Demographics of clients served White 22%, Black 11%, Asian 21%, Other/Unknown, 14%, Hispanic 32%. The top languages were Spanish, Portuguese, Khmer, Haitian Creole, Arabic. 50% of all patients at the Lowell Community Health Center require interpreter services.</p> <p>In FY 23, Lowell Community Health Center translated over 200 documents, flyers and/or forms for individual patients and general education posting on health center social media sites. Majority of materials were translated into Spanish, Portuguese, Khmer. The Health Center also translated materials targeted to Arabic, Swahili, and Vietnamese speakers. Information included: Lowell CHC SAMHSA-funded Partners in Prevention HIV/AIDs grant program; international overdose awareness; LGBTQ History Month; Happy Growth and Nutrition; FDA alert for artificial tear/lubricant eye drops; Colorectal Screening guidance; Patient Privacy notices; materials for Health Insurance renewal fairs; materials promoting My Chart (patient electronic access); promotion of new Healthy Aging Clinic.</p> |

|                                |  |                                |
|--------------------------------|--|--------------------------------|
|                                | <p>Via text messages to 10,000 patients, in English, Spanish, Portuguese, Khmer, Lowell Community Health Center sent a survey concerning the Sliding Fee Discount program. Survey asked patients if they considered the amount charged was reasonable. They also provided multi-lingual texting to remind patients of overdue procedures and lab services; eye glasses pickup.</p> <p>Lowell Community Health Center made changes to its phone messaging system by adding service and administrative department directories, in four top languages (English, Spanish, Portuguese, Khmer)</p> <p>Lowell Community Health Center delivered 50 episodes of its signature Khmer-language tv program, Jivit Thmei, which aired 156 times (Monday 9-10pm, Tues/Wed 10-11pm on local channel 95 and channel 26, and included information on vaccines, flu prevention and other topics from CDC and other sources.</p> |                                |

| <b>Priority Health Need: Equitable Access to Care</b>                                  |   |
| <b>Program Name: Peabody Veterans Memorial High School Student-based Health Center</b> |   |
| <b>Health Issue: Additional Health Needs as Defined by the Community</b>               |   |
| <b>Brief Description or Objective</b>  | This program provides high-quality, comprehensive health care to students on site at Peabody High School. Services include management of chronic illnesses such as asthma and diabetes, urgent care visits, immunizations, routine and sports physicals, health education, and confidential services, including reproductive health care and behavioral health services.  |
| <b>Program Type</b>  | <input type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports<br><input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support Community<br><input checked="" type="checkbox"/> Total Population or Community Wide Benefits<br>Intervention   |
| <b>Program Goal(s)</b>   | <ul style="list-style-type: none"> <li>• Provide support and funding for services at the PVMHS SHC that meet a critical, identified community need.</li> <li>• Provide access to critical behavioral health services for students who are uninsured/health safety net or on MassHealth.</li> <li>• Increase student participation by 10% in Youth Action Committee (YAC) to improve mental health by 2026.</li> <li>• To provide diversion in lieu of suspension to 60 students by 2026, an increase of 20%.</li> </ul> |
| <b>Goal Status</b>   | <ul style="list-style-type: none"> <li>• FY23, the SHC had the following impacts: Medical: 748 Onsite: 747 Telehealth: 1 Behavioral health: 1286 Total number unduplicated patients – 377 Total number of visits where client had no insurance at time of visit and visit was not paid out of another revenue source: 112 The top 3 diagnoses were Anxiety Disorder, Adjustment disorder with mixed anxiety and depressed mood, Adjustment Disorder.</li> </ul>   |

|                                |   |                                |
|--------------------------------|---|--------------------------------|
|                                | <ul style="list-style-type: none"> <li>• In FY 23, 68% of health center clients were either on MassHealth/uninsured health safety net.</li> <li>• In school year 22-23, the YAC led by staff had weekly meetings with a group of 15 students. This year YAC engaged the PVMHS student population in three main projects including; hat and mitten drive, Valentines Project and the Gratitude Project. PVMHS students donated winter apparel to elementary school students in need. The Valentines Project involved creating an individual valentine for each community member (student and staff) which totaled over 1700 valentines that were strung inside the cafeteria for all to see. While members of the YAC played a large role in creating these valentines, many other students volunteered their time to help with setting up the display. Lastly, the Gratitude Project invited each student and staff member to express a note of gratitude on the glass windows of the cafeteria. To ensure complete engagement of the PVMHS community, this project spanned over the course of 10 weeks.</li> <li>• In school year 22-23 over 35 students have been registered in and received substance use prevention educational sessions in lieu of suspension. Of these students, approximately 5% consented to nicotine replacement therapy, and six students have been referred for individual therapy within the SBHC program.</li> </ul> |                                |

| <p><b>Priority Health Need: Equitable Access to Care</b></p> <p><b>Program Name: Saheli’s Community Health Outreach, Engagement and Education</b></p> <p><b>Health Issue: Additional Health Needs as Defined by the Community</b></p> |   |
| <b>Brief Description or Objective</b>   | <p>LHMC partners with Saheli to support, grow and strengthen community-based outreach, engagement and education targeted to the unique needs of the South Asian and Arab immigrant communities. The project assists immigrants through a two-pronged approach: 1) a culturally competent Community Health Worker (CHW) also trained as a DV advocate, will improve access and engagement of health and safety services to South Asian and Arab communities. CHW will assess client’s needs, link households to supports, and enhance access to culturally competent care providing trauma informed and survivor-centered services tailored to the goals and needs of the survivor.; 2) CHW will provide education and engagement with medical and mental health providers, housing providers, and community leaders to raise public awareness about SA and Arab immigrant survivors challenges and improve social acculturation and health access for these households.</p> |

|                        |   |
|------------------------|---|
| <b>Program Type</b>    | <input type="checkbox"/> Direct Clinical Services<br><input type="checkbox"/> Community Clinical Linkages<br><input checked="" type="checkbox"/> Total Population or Community Wide Intervention<br><input type="checkbox"/> Access/Coverage Supports<br><input type="checkbox"/> Infrastructure to Support Community Benefits  |
| <b>Program Goal(s)</b> | <ul style="list-style-type: none"> <li>• Upon notice of funding, Saheli will perform and complete a search for the culturally competent Community Health Worker and hire within 60 days.</li> <li>• Once on board, the Community Health Worker will work with the team to create two focus groups within 30 days of hire – one Arab participants and one SA participants – to help identify how and where to best engage with the target population; and at the same time, reach out to community contacts to create at least six formal agreements with referral/project partners.</li> <li>• Once on board, the Community Health Worker will work with the team to create two focus groups within 30 days of hire – one Arab participants and one SA participants – to help identify how and where to best engage with the target population; and at the same time, reach out to community contacts to create at least six formal agreements with referral/project partners.</li> <li>• Community Health Worker will outreach and engage a minimum of 35 SA/Arab households in program services and supports and track progress toward client self-designated goals and objectives.</li> <li>• Community Health Worker will conduct a minimum of 10 community-based educational and community meetings during the project period for community-based organizations to raise public awareness about SA and Arab immigrant challenges and approaches to success with the population.</li> </ul> |
| <b>Goal Status</b>     | <ul style="list-style-type: none"> <li>• Immediately upon notice of funding, Saheli recruited and hired a part-time Community Health Worker with South Asian language capacity and have plans to add a .25FTE Arabic speaking Community Health Worker to the Outreach and Engagement team in the new year.</li> <li>• The Community Health Worker, together with other outreach and engagement staff members, have conducted ongoing focus groups with Arab survivors and SA survivors to help identify their needs and how to best engage with them.</li> <li>• The Outreach and Engagement team has led several focus group sessions in colleges to help community advocates understand the intersection of domestic violence with chronic illness and have collaborated with Tufts for Health Equity and Tufts MARCH, reaching over 50 students. Saheli has also collaborated with healthcare providers across the state from Boston Healthcare for the Homeless Program and Boston Children’s Hospital, training providers on how domestic violence interacts with homelessness and on cultural competency, respectively.</li> </ul>  |

- In FY23, Saheli engaged with 338 unduplicated clients throughout the region; 42 of those clients were seeking emergency supports and financial assistance.
- In FY23, Saheli's Outreach and Engagement team conducted 27 community-based public awareness and cultural education activities within our region as indicated below:
  - Total Educational & Community Meetings: 27
  - Total People Reached: 1184
  - IINE - Healthy Relationships Workshop (Attendees: 10) (Afghani Community)
  - IINE - Mental Health Workshop (Attendees: 10) (Afghani Community)
  - IINE - Know Your Rights Workshop (Attendees: 10) (Afghani Community)
  - Revere PD - Supporting Domestic Violence Survivors (Attendees: 15)
  - State House - Denim Day Lobbying (Attendees: 100 legislators)
  - Harvard Women's Center - South Asian Dating (Attendees: 10)
  - Wellesley College Asian Student Union - Power Dynamics in Dating (Attendees: 20)
  - Tufts for Health Equity - Bystander Intervention Training (Attendees: 20)
  - Tufts MARCH - How Chronic Illness Can Manifest in Racism (Attendees: 30)
  - Boston University - SAAM Vigil (Attendees: 150)
  - Revere PD - Cultural Competency Training (Attendees: 15)
  - Boston Healthcare for the Homeless Program - Supporting Survivors Who Experience Homelessness (Attendees: 15)
  - MIT - Identities and Community (1/3) (Attendees: 10) (South Asian Community)
  - Volunteer Orientation (1/2) (Attendees: 12)
  - Volunteer Orientation (2/2) (Attendees: 18)
  - Tufts - Community Day (Attendees: 150)
  - REACH - DV Awareness (Attendees: 150)
  - NEBAF - Women's Empowerment (Attendees: 40) (Bangladeshi Community)
  - Tufts for Health Equity - How Chronic Illness Can Manifest in Racism (Attendees: 17)
  - Revere PD - DV Awareness Luncheon (Attendees: 20)
  - MIT - Intersectionality & Identifying Barriers (2/3) (Attendees: 5) (South Asian Community)

|                                       |   |
|---------------------------------------|---|
| <b>Brief Description or Objective</b> | All Community Benefits staff at each Beth Israel Lahey Health (BILH) hospital worked together to plan, implement, and evaluate Community Benefits programs. Community Benefits staff continued to understand state and federal regulations, build community engagement and evaluation capacity, and collaborate on implementing similar programs. BILH continues to refine the Community Benefits (CB) database, as part of a multi-year strategic effort to streamline and improve the accuracy of regulatory reporting, simplify the collection of and access to standardized CB financial data, and create a uniform, system-wide tracking and monitoring model. |

| <b>Brief Description or Objective</b>  | LHMC provides support to the Peabody Council on Aging for their transportation project, "Project Mobility". Peabody has developed one of the largest transportation systems offered by Councils on Aging in the Commonwealth. Project Mobility provides over 30,000 rides per year for Peabody's older adults and individuals with disabilities to medical appointments, grocery stores, social services agencies, to the senior center, to the Adult Day Health Program and necessary services. The transportation service allows non-driving residents of Peabody the opportunity to remain independent in the community. Peabody has a large older adult population as the 2020 US Census identified 17,279 individuals 60 years and older living in Peabody. That represents 32% of the total population which is almost double the state average. |                                |

| <b>Priority Health Need: Social Determinants of Health</b><br><b>Program Name: LHMC Internship Programs</b><br><b>Health Issue: Additional Health Needs as Defined by Community</b> |  |  |
| <b>Brief Description or Objective</b>   | LHMC is committed to collaborating with partners to strengthen the local workforce by supporting job training and internship programs. Every year, through the Radiology Job Training Program, students from surrounding colleges and universities are given the opportunity to receive hands-on clinical experience in radiation, breast imaging, CT scan, nuclear medicine, and ultrasound technologies. Internships range from 6 months to 2 years and interns are supervised and educated by LHMC staff members. LHMC partners with Bunker Hill Community College, Middlesex Community College, Massachusetts College of Pharmacy and Health Science, and Regis College on this program. |  |

BILH is also committed to increasing access to Behavioral Health services as part of primary care. Services include individual and group therapy for mental health and substance use issues; addiction treatment; family services; mobile crisis teams for behavioral and substance-related emergencies, and inpatient psychiatric care. Centralized bed management monitors a patient's progress through a facility or emergency department and coordinates the placement of behavioral health patients in the inpatient unit best suited to their needs based on clinical presentation and geographic location.</p> |                                |

| <b>Program Goal(s)</b>  | <ul style="list-style-type: none"> <li>By September 30<sup>th</sup>, 2023 LHMC will guide patients through the complexities of the disease, direct them to health care services for timely treatment and survivorship, and actively identify and address barriers to care that might prevent them from receiving timely and appropriate</li> </ul>  |

|                                |  |                                |
|--------------------------------|--|--------------------------------|
|                                | treatment. In addition, the nurse navigator connects patients with resources and health care and support services in their communities and assists them in the transition from active treatment to survivorship. |                                |
| <b>Goal Status</b>             | <ul style="list-style-type: none"> <li>In FY 23 Oncology Navigators assisted 10-15 patients per day and provided referral and supportive services.</li> </ul>  |                                |
| <b>Time Frame Year: Year 1</b> | <b>Time Frame Duration: Year 3</b>   | <b>Goal Type: Process Goal</b> |

|   |   |                                |
|---|---|--------------------------------|
| <b>Priority Health Need: Chronic/Complex Conditions and Risk Factors</b><br><b>Program Name: Cancer Programs Screening and Prevention</b><br><b>Health Issue: Chronic Disease</b> |   |                                |
| <b>Brief Description or Objective</b>   | LHMC has implemented an assessment screening tool at the Burlington, Peabody, and Lexington locations to help community residents determine whether they might be at risk for breast cancer. Using an electronic tablet, people confidentially answer questions that help determine whether they may be at a higher risk for breast cancer. The assessment, evaluation, and follow-up are all provided at no cost to participants. Results are given to their physicians, who can help them determine whether they might benefit from a higher level of screening beyond regular checkups and mammograms. LHMC is also a long-standing partner and provides support to the American Cancer Society on many community-based prevention activities. |                                |
| <b>Program Type</b>   | <input checked="" type="checkbox"/> Direct Clinical Services <input type="checkbox"/> Access/Coverage Supports<br><input type="checkbox"/> Community Clinical Linkages <input type="checkbox"/> Infrastructure to Support Community<br><input type="checkbox"/> Total Population or Community Wide Benefits Intervention  |                                |
| <b>Program Goal(s)</b>  | <ul style="list-style-type: none"> <li>By September 30<sup>th</sup>, 2023 LHMC will identify persons who may be at a higher risk for breast cancer and provide screening follow-ups to their physicians.</li> </ul>   |                                |
| <b>Goal Status</b>  | <ul style="list-style-type: none"> <li>In FY 23, LHMC completed 21,029 risk assessments for 20,553 unique individuals. 13% of patients screened were identified as having a high lifetime risk of breast cancer and 27% were identified as having a high-risk mutation.</li> </ul>  |                                |
| <b>Time Frame Year: Year 1</b>  | <b>Time Frame Duration: Year 3</b>  | <b>Goal Type: Process Goal</b> |

## SECTION V: EXPENDITURES

| Item/Description   | Amount       | Subtotal Provided to Outside Organizations (Grant/Other Funding) |
|--|--------------|--|
| <b>CB Expenditures by Program Type</b>                     |              |  |
| <b>Direct Clinical Services</b>                            | \$9,230,794  | \$ 0   |
| <b>Community-Clinical Linkages</b>                         | \$1,211,249  | \$12,692   |
| <b>Total Population or Community Wide Interventions</b>    | \$1,168,794  | \$584,287  |
| <b>Access/Coverage Supports</b>                            | \$3,145,851  | \$533,133  |
| <b>Infrastructure to Support CB Collaborations</b>         | \$76,609     | \$0  |
| <b>Total Expenditures by Program Type</b>                  | \$14,833,297 | \$1,130,072  |
| <b>CB Expenditures by Health Need</b>                      |              |  |
| <b>Chronic Disease</b>                                     | \$5,844,562  |  |
| <b>Mental Health/Mental Illness</b>                        | \$2,429,711  |  |
| <b>Substance Use Disorders</b>                             | \$1,237,733  |  |
| <b>Housing Stability/Homelessness</b>                      | \$65,804.40  |  |
| <b>Additional Health Needs Identified by the Community</b> | \$5,255,485  |  |
| <b>Total by Health Need</b>                                | \$14,833,297 |  |
| <b>Leveraged Resources</b>                                 | \$171,567    |  |
| <b>Total CB Programming</b>                                | \$15,004,864 |  |
| <b>Net Charity Care Expenditures</b>                       |              |  |
| <b>HSN Assessment</b>                                      | \$5,366,306  |  |
| <b>Free/Discounted Care</b>                                | \$476,236    |  |
| <b>HSN Denied Claims</b>                                   | \$1,135,356  |  |

|                               |                 |  |
|-------------------------------|-----------------|--|
| <b>Total Net Charity Care</b> | \$7,177,797.94  |  |
| <b>Total CB Expenditures</b>  | \$22,182,761.94 |  |

| <b>Additional Information</b>   |  |
|---|--|
| <b>Net Patient Services Revenue</b>   | \$1,098,564,774  |
| <b>CB Expenditure as % of Net Patient Services Revenue</b>  | 2.02%  |
| <b>Approved CB Budget for FY24 (*Excluding expenditures that cannot be projected at the time of the report)</b> | \$22,182,761.94  |
| <b>Bad Debt</b>   | \$6,682,828  |
| <b>Bad Debt Certification</b>   | Yes  |
| <b>Optional Supplement</b>  |  |
| <b>Comments</b>   | LHMC also contributes a PILOT payment to the Town of Burlington.<br>LHMC is subsidizing behavioral health services outside of its CBSA |

## SECTION VII: HOSPITAL SELF-ASSESSMENT FORM

### Hospital Self-Assessment Update Form – Years 2 and 3

Note: This form is to be completed in the two Fiscal Years following the hospital’s completion of its triennial Community Health Needs Assessment

#### I. Community Benefits Process:

- Has there been any change in composition or leadership of the Community Benefits Advisory Committee in the past year? Yes
  - If so, please list updates:
  - Susan Moffatt-Bruce, MD, PhD, President Lahey Hospital & Medical Center joined the committee; Tim Liesching, MD Chief Medical Officer, Lahey Hospital & Medical Center replaced Andy Villanueva; Rosemary DeSousa, Burlington Public Schools replaced Jennifer Knight, Director of Family and Community Engagement, Burlington Public Schools; Greg Schmergel, LHMC Board of Trustees replace Melissa Hastings-Cruz, LHMC Board of Trustees; Ryan Ribero Rodriguez, North Shore Community Health replaced Allison Kilcoyne, North Shore Community Health; Erica Schwartz, Executive Director of Housing Corporation of Arlington joined the CBAC

#### II. Community Engagement

##### a. Organizations Engaged in CHNA and/or Implementation Strategy

If there have been any updates to the key partners with whom the hospital collaborates, please indicate in the table below. Please feel free to add rows as needed.

| Organization                   | Name and Title of Key Contact                       | Organization Focus Area      | Brief Description of Engagement (including any decision-making power given to organization)   |
|--------------------------------|---|------------------------------|---|
| Center for Hope and Healing    | Mana Kheang,<br>Director of Grants and Partnerships | Social service organizations | LHMC partners with Center for Hope and Healing to provide a three-year grant for support group services for historically underserved communities in Lowell    |
| Saheli                         | Priya Murali,<br>Executive Director                 | Social service organizations | LHMC partners with Saheli to provide funding for a three-year grant for a Community Health Worker to serve families of South Asian and Middle Eastern descent |
| Lowell Community Health Center | Karen Myers   | Community Health Centers     | LHMC provides funding for a three-year grant to help to   |

|                                  |                                    |                       |  |
|----------------------------------|------------------------------------|-----------------------|--|
|                                  |                                    |                       | provide interpretation services for the Lowell Community Health Center   |
| Housing Corporation of Arlington | Erica Schwartz, Executive Director | Housing organizations | LHMC provides funding for a three-year grant for supportive housing services and includes the executive director on the CBAC |

b. Level of Engagement Across CHNA and Implementation Strategy

Please use the spectrum below from the Massachusetts Department of Public Health<sup>1</sup> to assess the hospital’s level of engagement with the community in implementing its plan to address the significant needs documented in its CHNA, and the effectiveness of its community engagement process.

**For a full description of the community engagement spectrum, see page 11 of the Attorney General’s Community Benefits Guidelines for Non-Profit Hospitals.**

A. **Implementation Strategy**

Please assess the hospital’s level of engagement in developing and implementing its plan to address the significant needs documented in its CHNA and the effectiveness of its community engagement process.

| Category  | Level of Engagement | Did Engagement Meet Hospital’s Goals?          | Goal(s) for Engagement in Upcoming Year(s) |
|---|---------------------|--|--|
| Overall engagement in developing and implementing | Collaborate         | Goal was met – In FY 23 LHMC collaborated with | Collaborate                                |

|   |             |   |             |
|---|-------------|---|-------------|
| filer’s plan to address significant needs documented in CHNA  |             | CBAC members to prioritize and allocate grant funding to address health needs identified in the CHNA  |             |
| Determining allocation of hospital Community Benefits resources/selecting Community Benefits programs | Collaborate | Goal was met – IN FY 23 LHMC engaged with it’s CBAC in an RFP process to allocate three-year grants to community organizations addressing health needs identified in the LHMC Implementation Strategy | Collaborate |
| Implementing Community Benefits programs  | Collaborate | Goal was met – LHMC engaged the CBAC in the review process for RFP’s for three-year grant funding in alignment with the Implementation Strategy   | Collaborate |
| Evaluating progress in executing Implementation Strategy  | Collaborate | Goal was met – LHMC and BILH have engaged grantees in a regular data tracking system to provide mid-year and annual progress on community benefits programs   | Collaborate |
| Updating Implementation Strategy annually   | Consult     | Goal was met – BILH and LHMC have worked to update and engage the CBAC in tracking data for community benefits programs on a regular basis  | Consult     |

- For categories where community engagement did not meet the hospital’s goal(s), please provide specific examples of planned improvement for next year:

c. Opportunity for Public Feedback

Did the hospital hold a meeting open to the public (either independently or in conjunction with its CBAC or a community partner) at least once in the last year to solicit community

feedback on its Community Benefits programs? If so, please provide the date and location of the event. If not, please explain why not.

LHMC hosted it's annual public meeting via zoom on September 19th, 2023

### III. **Updates on Regional Collaboration**

1. If the hospital reported on a collaboration in its Year 1 Hospital Self-Assessment, please briefly describe any updates to that collaboration, including any progress made and/or challenges encountered in achieving the goals of the collaboration.

No updates

2. If the hospital entered a regional collaboration in the past year, please provide the information requested of regional collaborations on p. 5 in the Year 1 Hospital Self-Assessment Form.

No updates
